Operations of the Mint.

The treasurer of the mint at Philadelphia, in his monthly exhibit of the operations of that institution for October, shows a total coinage of \$3,011.926, exclusive of \$3.515.236 in bars. The total value of gold and silver passing through the mint was \$8,-329.088. Of the gold coinage, which, however, was only \$1.801.926, nearly one-half was in small gold-quarter-eagles and dollars. The silver coinage was larger than for any month in some years, reaching \$1.210.000, principally in quarter-dollars. The demand for small change is thus being rapidly supplied. The deposites for the month were \$4,-327.000 in California gold, and \$125,000 in gold from other sources. Silver bullion deposited, \$620 .-000. Total deposites, \$5.052.000. DINNER TO THE HOWARD ASSOCIATION. - The Picayune of Sunday morning says: The enterprising propretors of the City Hotel gave

a dinner last evening to the Howard Association. It was a very splendid affair, and numerously attended Dan, Hickok, the model caterer and prince of hosts as well as of good fellows, presided, assisted by Messrs. Appropriate toasts were drunk to the Mayor, (whose unavoidable absence was excused by the President of the Howard Association,) to the Howard Association, to Mr. Boullemet, the President, Mr. Kursheedt, the Treasurer, and Mr. Ricardo, the Secretary of the Association, and to many other gentlemen present, and to the public press, all of which were happily respoded to.

"The Medical Faculty of New Orleans" was given and drunk, with great cordiality. This brought Dr. Dalton to his feet, who replying briefly to the above,

The first horses brought into any part of the territory at present embraced in the United States, were landed in Florida by Cabeca de Veca, in 1527, fortytwo in number, all of which perished or were otherwise killed.
